Summary

Pursuing MBA (Business Analytics) from IIM Amritsar.

Received Merit Scholarship for securing Rank 1 in MBA BA batch at IIM Amritsar during academic year 2024-25.

Have a look at my Visual Resume - https://public.tableau.com/app/profile/ritik.joshi7979/viz/Ritik_Joshi_Resume_Finalnew/Dashboard1

I have worked as a Software Engineer at Incedo Inc for 1 year.

Secured 98.37 %ile in CAT 2023.

Certification on Generative AI Essentials by LinkedIn and Microsoft.

Certification on Agile Methodologies by Forage.

Certification on Microsoft Excel by Coursera.

Certification on Supply Chain Management by Great Learning.

I have experience of working with Java, Sql, docker, linux, JDBC and Android app development using Java.

Experience of building web applications using popular framework like Spring boot.

Experience of version control like Git.

Experience in building Rest applications.

I have completed B.E. from IET DAVV, INDORE in 2022.

Experience

Schneider Electric

Data & Analytics Intern

April 2025 - June 2025 (3 months)

Bengaluru, Karnataka, India

Worked with the Procurement team to analyse and enhance existing solutions.

Developed dashboards using Tableau.

Worked on python scripts to preprocess the input.

Tools used - Tableau, Python, Excel

InsideIIM.com | AltUni.in

Marketing Intern

May 2024 - June 2024 (2 months)

Leveraged social networking sites, including LinkedIn, to promote InsideIIM and expand its user base. Conducted market research to collect valuable insights from users and analyzed potential market segments to formulate effective strategies in order to engage with them.

Incedo Inc.

1 year 4 months

Software Engineer Trainee

July 2022 - April 2023 (10 months)

Pune, Maharashtra, India

Collaborated with the backend team to develop a SaaS (Software as a Service) platform that incorporated all the products of the client under a single platform. Provided validations on all the services that were used in the application in order to ensure that the user requests were in the desired format. Developed flowcharts, layouts, and documentation to identify requirements and solutions.

Software Engineer Intern

January 2022 - July 2022 (7 months)

Pune, Maharashtra, India

Education

Indian Institute of Management Amritsar

Master of Business Administration - MBA, Business Analytics · (June 2024 - April 2026)

Institute of Engineering & Technology DAVV, Indore

Bachelor of Engineering - BE, Information Technology · (July 2018 - June 2022)

PROFESSIONAL SUMMARY

MBA Candidate specialized in Business Analytics at the Indian Institute of Management (IIM) Amritsar. Experience in creating interactive dashboards to interpret large amounts of complex data into useful, actionable data-driven recommendations using Python, SQL and Tableau.

ACADEMIC PROFILE

Institution	Degree	Percentage	Completion Year
Indian Institute of Management (IIM) Amritsar	MBA – Business Analytics	94.60%	2026
Institute of Engineering & Technology (DAVV)	BE – Information Technology	78.50%	2022
St. Arnold's School	Class XII – CBSE	85.80%	2018
St. Arnold's School	Class X – CBSE	91.20%	2016

WORK EXPERIENCE

Software Engineer Trainee | Incedo | Jul 2022 – Apr 2023

- Collaborated with backend teams in developing a SaaS platform for the client.
- Created test cases for application services to support rigorous testing and system reliability.
- Resolved system bugs while upgrading existing applications to meet evolving requirements.
- Implemented validation checks across services, improving data integrity, reducing errors, and enhancing system performance.
- Followed SDLC practices to ensure smooth integration and timely delivery.

Data & Analytics Intern | Schneider Electric | Apr 2025 – Jun 2025

- Designed interactive Tableau dashboards using dynamic filters, KPIs, and parameters to improve data visibility and reporting.
- Partnered with cross-functional teams to understand business requirements and convert them into analytical insights.

- Cleaned and standardized large procurement datasets using Python scripts, enhancing data accuracy and consistency.
- Automated procurement KPI monitoring for supplier coverage, spend buckets, and negotiated savings, enabling stakeholders to track YTD performance, cash-flow realization and **>15%** saving percentage impacts across tactical procurement initiatives.

AWARDS & ACHIEVEMENTS

- Merit Scholarship for securing **1st Rank** in the MBA-BA (Business Analytics) program at IIM Amritsar during academic year 2024-25.
- Contributed to a road safety awareness initiative conducted by the Indore Traffic Police.

KEY PROJECTS

Psychographic Segmentation Using K-Means Clustering

- Applied **K-Means clustering** on psychographic survey data to identify three distinct consumer segments.
- Interpreted clusters using demographic, lifestyle, and behavioral attributes to build consumer personas.

NLP-Powered LinkedIn Profile Analyzer

- Developed an **end-to-end LinkedIn profile scoring system** using NLP techniques such as TF-IDF and Named Entity Recognition.
- Built a complete data pipeline including web scraping, text cleaning (HTML removal, stop-words, lemmatization), and validation.

SKILLS

- Data Visualization & Analytics Tools: Tableau, Power BI, SPSS, KNIME
- Programming languages: Python, SQL, Java, R
- Tools & Platforms: Microsoft Excel, Word, PowerPoint, Jira, Git, Postman

CERTIFICATIONS

- **Microsoft Excel (Coursera)** – Data formatting, visualization, and advanced Excel functions.
- **Agile Job Simulation (JP Morgan)** – Agile vs. Waterfall, Agile lifecycle, Sprint Planning, etc.
- **Career Essentials in Generative AI (LinkedIn)** – Ethical use of Generative AI, 5Ps.
- **Tableau Certification (UC Davis)** – Dashboards, charts, filters, parameters and storytelling.
- **Python for Analytics (Meta)** – EDA, data visualization, and libraries Pandas, Matplotlib, etc.

ACADEMIC PROFILE			
BE (IT)	Institute Of Engineering And Technology (DAVV)	78.50 %	2022
Class XII	St. Arnold's School (CBSE)	85.80 %	2018
Class X	St. Arnold's School (CBSE)	91.20 %	2016
SUMMER INTERNSHIP			
Schneider Electric		2 Months	Apr'25 - Jun'25
Data & Analytics Intern	- Developed interactive dashboards in Tableau with dynamic filters, KPIs, and parameters, improving data visibility. - Collaborated with cross-functional teams to gather business requirements and translated them into actionable insights. - Standardized and cleaned large procurement datasets using Python scripts, enhancing data quality and consistency. Automated procurement KPI tracking for supplier coverage, spend buckets, and negotiated savings, enabling stakeholders to monitor YTD performance, cashflow realization, and >15% saving percentage impacts across tactical procurement initiatives.		
WORK EXPERIENCE			
Incedo		8 Months	Jul'22 - Apr'23
Software Engineer Trainee	- Worked closely with the backend team to develop a comprehensive SaaS platform. Developed test cases for application services, facilitating rigorous testing and validation to ensure software reliability. Analyzed and effectively debugged system issues while upgrading existing systems to meet evolving business requirements. Implemented robust validations across all application services to ensure that user requests conformed to the desired format, leading to improved functionality, reduced errors, enhanced data integrity, and increased system reliability and performance. Utilized version control system (Git) to effectively manage codebase changes, track revisions, and ensure code integrity. - Executed tasks according to SDLC methodologies to ensure seamless integration and timely delivery of software solutions.		
KEY PROJECTS			
Psychographic Segmentation Using K-Means Clustering	- Applied K-Means clustering on psychographic survey data to identify three distinct consumer segments. - Interpreted clusters using demographic, lifestyle, and behavioral patterns, to develop consumer personas. Mapped each consumer segment to relevant brand categories by aligning their psychographic traits with product fit, media habits, and purchasing behavior, enabling targeted marketing and improved positioning decisions.		2025
NLP-Powered LinkedIn Profile Analyzer	Developed an end-to-end LinkedIn profile scoring system using NLP techniques including TF-IDF, Named Entity Recognition, and regex-based feature extraction, improving the objectivity of candidate evaluation. Built a complete data pipeline consisting web scraping, text cleaning (HTML removal, stopwords, lemmatization) and data validation, to ensure high-quality and consistent input for model performance.		2025
Business Analyst Live Project	- Executed hands-on data preprocessing and data visualization techniques to analyze sales data. - Received winter internship opportunity and letter of recommendation for being among the top 20% performers.		2024
AWARDS & ACHIEVEMENTS			
Co-Curricular	Awarded Merit scholarship for securing 1st Rank in the MBA-BA (Business Analytics) program during academic year 2024–25 at Indian Institute of Management, Amritsar.		2025
Extra-Curricular	Assisted in delivering a high-impact Road Safety awareness initiative in partnership with the Indore Traffic Police.		2015
ADDITIONAL INFORMATION			
Certifications	- Completed Coursera’s Microsoft Excel course, building skills in data formatting, visualization, and excel functions. - Completed Agile Job Simulation by JP Morgan, gaining knowledge of Agile vs Waterfall, Agile stages and its advantages. - Career Essentials in Generative AI by LinkedIn. Acquired knowledge on uses, challenges and ethics in the age of generative ai. - UC Davis-certified Coursera course on Tableau, gaining practical skills in dashboards, charts, filters, and interactive analytics. - Completed Meta-certified Coursera course on Python Data Analytics, developing skills in data manipulation, exploratory data analysis (EDA), data visualization, and using Python libraries such as Pandas, NumPy, and Matplotlib.		
Languages	English, Hindi		
Expertise	- Data visualization and Analytics tools like Tableau, Power BI, SPSS, Knime - Programming languages like Java, Python, R and SQL - Microsoft Office Suite (Excel, Word, PowerPoint) Jira Project Management Tool Git Postman		
Hobbies	Sports like Cricket, Badminton and Football
